Electronics Stuff

Electronics Essentials ☒

Electronics Connections Starter Pack

This Electronics Connections Starter Pack gets all your devices connected. WiFi is great, but during midterms and finals everyone on campus is using the same WiFi making it slow to a crawl. Having ethernet connections makes sure you can get your work done - make sure to buy an ethernet cable for each item you need (laptop, gaming system, smart TV).

- Laptop Cable Lock
- Power Strip / Surge Protector
- Ethernet
- HDMI
- Extension Cord
- Coaxial

Printer

HP DeskJet 3755 Compact All-in-One Printer

With limited space in a dorm, you need a printer with a small foot print. There are smaller printers than this one, but this also has the ability to scan and copy. Having a scanner can be a life saver when your parents ask you to sign some paperwork and send it back to them. This printer is both wireless and includes a USB cable if your dorm doesn't allow wireless printing.
